## Discontinuation of ND Series Rotaries & ND3 Series SMT Rotaries

Type of Change:

- Engineering     Part Number
- Product         Appearance

NKK Switches will be discontinuing the ND Series DIP Rotaries and the ND3 Series SMT DIP Rotaries, both standard and custom models. There is a plan in place for the soon-to-be released FD01 Series Rotaries and FD02 Series SMT Rotaries as recommended products. In comparison, the new FD01 and FD02 Series have the same or less mounting area; they also have a higher heat resistance for soldering processes. The footprints and pad layouts are different from the ND and ND3 Series, and would require a redesign of the PCB layout.

**ND Series & ND3 SMT Series Rotaries will be Discontinued**

1. NKK Switches will be discontinuing the ND Series 8mm DIP Rotaries, both standard and custom models. The table below lists the discontinued part numbers and recommended models.
