## Changes for Case Material of WT Toggles, WR Rockers & WB Pushbuttons

Type of Change:

- Engineering     Part Number
- Product         Appearance

There will be a revision to the material used for the switch cases for WT Toggles and WB Pushbuttons. WR Rockers are also included, with the exception of UL/CUL recognized rockers. The inner case material was previously melamine resin, and will be revised to melamine phenol resin. This change will apply to all standard and custom switches for each series. Effected standard part numbers for all three series are listed on the table below and continue on page 2.
