# ST Series

## Change to Method of Identification for ST Toggles

Type of Change:

- Engineering     Part Number  
 Product         Appearance

The process by which a switch is identified on the switch case will be changing. Previously, identification had been printed on the case, but the method will be revised to application of a printed label. The NKK logo will also appear on the label. These changes will effect both standard and custom products for ST21AN205 and ST21DN205 Toggles. The illustrations below depict a standard switch before and after the revisions.

Change to Method of Identification	
Before Change	After Change
 <p>Part number printed in black ink on side of switch case</p>	 <p>Part number printed in black ink on label on side of switch case. NKK logo placed below part number.</p>

Part Numbers Effected by Identification Revisions	
ST21AN205	ST21DN205

### Notes

The changes to the identification methods do not effect other switch specifications. Contact factory if more details are needed.

### Effective Date

Changes to ST Toggles identification will be effective February 2016.
