GW Series

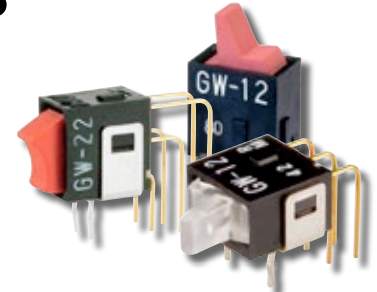

Change to Method of Identification on GW Series Rockers & Paddles

Type of Change:

- Engineering Part Number
- Product Appearance

There will be a revision to the method of identification on GW Series Rockers and Paddles for both illuminated and nonilluminated models. Previously, the part number and other identifying marks have been printed on the switch body; the method will be changed to laser etching. This change will apply to standard and custom GW Series Rockers and Paddles.

Effected standard part numbers for GW Series are on the table below.
